*"...Vanessa is a highly organised, well informed and personable presenter...she developed report with staff very quickly in her presentation to them & answered questions sensitively & honestly.*

*She did the same with the parent presentation (>100 parents) later that night. She answered all questions, presented information well and had plenty of anecdotes and resources to help along the way. Our parents, were very complementary.*

*The sessions with the kids have been accurate, matter-of-fact, pitched at the right level and engaging. I would have no hesitations in recommending her..."*
